

June 13, 2012

To Whom it may concern:

I want to send you just a short note to say a big thank you for setting up a website of Tupelo Concert Association. We have been needing that very public presentation, and you were the one with the connection and know-how to do that for us. Our organization is very appreciative to have accomplished a needed announcement with all the information you displayed.

So attractive is the screen as it scrolls through the upcoming season, presenting all the performers that we anticipate enjoying when they come to Tupelo. We did need that history of the association to establish a reminder of the longevity of service to our community. The maps were especially nice to be included, as we have first-time attenders coming from surrounding communities.

There is always a lot to attend to through the year as we work toward beginning a new season and concluding a past season of performances. You have given us an "official look" of being up to date and current with the competition out there as we begin our 2012-2013 season.

Thank you for taking the time and using your skills to have us more accessible in our surrounding community. We appreciate a job well done, and we hope you may be able to attend one of our shows.

Sincerely,

A handwritten signature in cursive script that reads "Linda Kinsey".

Linda Kinsey, President
